Continuing the Autumn Showing of Wooltex Coats and Suits

The many well-dressed women who have paid a visit of inspection to see the new Wooltex apparel have confirmed our opinion that styles were never handsomer and fabrics perhaps never quite so beautiful as they are this season.

And there is much gratification over the opportunity to secure such handsome new coats and suits during these early days, when women are so anxious to change from their summer garments to the beautiful new apparel of autumn.

Wooltex coats and suits express absolute correctness in style, with the highest character of tailoring and finish known to women's ready-to-wear garments. Every coat and suit is guaranteed by the manufacturers, and us, to give complete satisfactory service.

In buying Wooltex apparel there is security, both as to its correctness in fashion and the durability of the garment; and prices throughout are moderate.
